IN THE CLAIMS

The following listing of the claims is provided in accordance with 37 C.F.R.

§1.121.

DO NOT ENTER: /T.W./   DO NOT ENTER: /T.W./

1.   (currently amended)   A multi-media patient summary comprising a digital file comprising patient information including data representative of an anatomical feature or function stored in [[of]] one or more formats and generated by:

accessing patient information at a compilation workstation from one or more systems, the patient information including text, an [[and]] image, and a waveform;

entering the patient information into the digital file by utilizing an electronic template;

storing the digital file, including the text, the image, and the waveform, onto a machine readable medium; and

loading the digital file at one or more remote client workstations coupled to the compilation workstation via a network.

2.   (previously presented)   The multi-media patient summary of claim 1, wherein the patient information includes audio and a hypertext link.

3.   (original)   The multi-media patient summary of claim 1, wherein the patient information is accessed from at least one of an image handling system, an information system, and a diagnostic modality interface.

4.   (currently amended)   A method for providing a multi-media patient summary, comprising:

accessing patient information including data representative of an anatomical feature or function stored in [[of]] one or more formats from one or more systems to a
